

LEGISLATIVE ELECTION.

Sears Elected by the Vote of Silver Precinct.

HIS MAJORITY SMALL.

Encouraging News Received from the Southern Counties.

Beaver, Garfield, Iron, Washington, Kane, Piute, Wayne and San Juan Roll Up Democratic Majorities—The Campaign in Cache.

The only additional news of importance received yesterday in regard to the legislative election, was the result in Silver precinct. Up to yesterday morning, the Democrats claimed a majority of two votes for Miller, candidate in the eighth representative district, while the Republicans claimed the same majority for Sears, Republican, outside of Silver the vote not being known, although the presumption was that it would give a Republican majority.

It was learned yesterday that 17 votes were cast in the precinct, all of them being for Sears, and electing him beyond doubt. The result was not unexpected by the Democrats, and the estimates as to the complexion as to the legislative assembly are not changed. Miller not being far ahead in the list of representatives claimed by the Democrats.

Republicans assert that the vote of Silver elects Ashton superintendent of schools over Allen, Democrat, but this is not conceded.

The returns received yesterday from distant precincts all increase the Democratic majority, and the members of the Democratic committee are more confident than before that they will have a majority in the assembly.

THE SOUTH IS SOLD.

Beaver, Garfield, Iron, Washington, Kane, Piute, Wayne and San Juan Democratic.

Beaver, Nov. 11.—(Special via Deseret telegraph.)—Eight counties in southern Utah, embracing Beaver, Garfield, Iron, Washington, Kane, Piute, Wayne and San Juan, from latest reports to the Beaver central committee to date, have given a complete sweep for Democracy in three members of the legislature—Tolten, of Beaver, and Lyons, of St. George, and Charles Adams, of Panguitch, to the governor. Even Kane county, heretofore conceded to the Republicans by the committee here, went Democratic in every precinct, as did Garfield county. Panguitch, being its county seat, and conceded to be Republican, went Democratic by over 20 majority in the city election, and nearly every precinct in that county, as far as heard of, went Democratic unexpectedly. The committee here have advice by mail from Wayne and Piute counties that assure them they will be Democratic by from 75 to 125 majority.

This is a complete contradiction of the statement of the Republican chairman of the committee at Salt Lake, with the exception of the Parowan municipal ticket and Cedar city. In all these eight southern counties, notwithstanding Panguitch is a Republican stronghold, yet it went Democratic, as did also Minersville, Frisco and Milford, and in Cedar city, Hexbourne's home, the Republican member for the legislature only beat Tolton, member for Beaver, by 22 votes, and though Kanarrah went Republican by a few votes, Paragonah more than furnished the offset for the Democrats, and we would it published in Utah's Democratic organ, The Salt Lake Herald, that these eight counties in southern Utah are the solid south for Democracy and will be registered as the "Old Guard." More than usual interest and excitement were manifested in the city election here, as John T. Murdock, on the Republican ticket, and M. D. Shepherd, one of the greatest Democratic champions in the territory and has owned more sheep than any other two shepherds in southern Utah for the past twenty years, were candidates for the mayoralty. Both are battalion veterans and worthy men, but Shepherd beat Murdock 90 votes.

The Campaign in Cache.

The grand manner in which Cache county held the extreme end of the Democratic column last Tuesday is deserving of highest praise. Added to the efficient work of local chieftains, were the able efforts of Prof. T. E. Lewis, of Ogden, who addressed the rally at Logan on Saturday night, and of the Hon. Sam J. A. Merritt, of this city, who spoke to a crowded house on Monday evening. The local press speaks in the highest terms of these champions of Democracy and gives credit where it is due, and the returns but add to their praise.

BOX ELDER COUNTY.

Brigham City, Nov. 10.—The Republicans of Brigham are greatly disappointed at the result of the election here, and when it was reported that the Democratic marshal had been elected by a majority of three, they raised a fund for the purpose of contesting, and will try to throw out six votes in Mantua precinct. Prominent Republicans admit, however, that they were fairly beaten, and a contest will only hurt their cause.

KANE COUNTY.

Vernal, Nov. 7.—The county has surely gone overwhelmingly Democratic on the legislative ticket, with a majority for the county superintendent of schools. For the legislature, Cliff and McDonald have a majority of about 170. Vernal cast 153 Democratic votes and 33 Republican. Ashly precinct gives Cliff, Democratic, 49, and Eldridge, Republican, 22.

Additional returns were received last night by The Herald as follows:

WAYNE COUNTY.

Thurber—Democratic 16, Republican 7. Grover—Democratic 11.

WASHINGTON COUNTY.

New Harmony—Democratic 13, Republican 8. Washington—Democratic 23, Republican 16.

Piute—Democratic 12, Republican 5. Leadville—Democratic 12, Republican 10. Silver Reef—Democratic 4, Republican 13.

BOX ELDER COUNTY.

Democratic 13, Republican 8.

KANE COUNTY.

Kanarrah—Democratic 12, Republican 23.

GARFIELD COUNTY.

Panguitch—Democratic 78, Republican 64.

IRON COUNTY.

Paragonah—Democratic 29, Republican 17. Summit—Democratic 8, Republican 15.

PIUTE COUNTY.

Junction—Democratic 21, Republican 43.

TOWNSHIP.

Treadwell—Democratic 16. Koosharem—Democratic 36, Republican 20.

LOA COUNTY.

Loa—Democratic 39, Republican 18. Kingston—Democratic 6, Republican 19.

BEAVER COUNTY.

Adamsville—Democratic 7, Republican 13.

Nautical Terms.

An old "tar" has recently prepared a handbook of nautical terms, for the use of persons who intend to follow

the sea. In order to correct popular belief, our author gravely asserts that the berths on board ship do not necessarily add to the census. The hatchways are not hens' nests. The way of the ship is not the extent of her avoirdupois. The boatswain does not pipe all hands with a meerschaum. The ship does not have a wake over a dead calm. The swell of the ship's side is not caused by dropsy, nor is the taper of a bowsprit a tallow candle. The hold is not the vessel's grip. The trough of the sea is not dug out of the ship's leg. The crest of a wave is not an indication of its rank. The buoy is not the captain's son. The men are not beat to quarters with a club. Ships are never boarded at hotels. The bow of a ship is not evidence of politeness. A sailor's stockings are never manufactured from a yarn of his own spinning. The sails of a ship are not made by an auctioneer, nor are the stays constructed by a dressmaker.—Exchange.

A BIG MINING SUIT.

Now on Trial Before Judge Smith, at Provo.

Thirty Thousand Dollars Involved—The Property is Situated at Fish Springs—Garden City News.

Provo, Nov. 11.—During the past four days the time of Judge Smith has been occupied with one of the most important suits that has been before our courts for some time. The case is entitled "Fish Springs Mining Company vs. Chas. Crimmon et al." Plaintiff demands \$30,000 damages for trespass. It appears that the litigants have mining property adjoining and situated at Fish Springs, Juab county. Both parties have been developing their mines, and at some distance underground they have come together. Plaintiff claims that defendants have passed from their property into the vein of the Fish Springs Mining company and have extracted ore from their mine. The defendants claim that the plaintiff never had a vein in the first instance, and that they (the defendants) have simply been following their own vein, and are therefore not trespassing. The case will occupy the court for some time, and several important expert mining men of the west will be called as witnesses by the defense, who are represented in the case by Marshall & Royle and Andrus Sutherland, of Salt Lake, and W. H. King, of Provo.

Brown & Henderson, of Salt Lake, and Thurman & Sutherland, of Provo, represent the plaintiffs.

This case has brought to our town a great many witnesses and among the legal fraternity it is creating considerable interest.

President A. O. Smoot has been quite ill during the last week and has been unable to leave his room. Today he is somewhat better.

He Clark was bound over yesterday in the sum of \$200, to await the action of the grand jury. He is charged with an assault with intent to do bodily harm.

The Utah County Teachers' association held an interesting session today. A lecture was delivered by Prof. Brimhall.

Deputy Fowler went to Green River last evening in quest of the notorious Phil Foote, who was captured a few days ago and was being held at that point. He will be taken at once to Salt Lake.

Mr. T. G. Webster spent yesterday in the Garden City on business connected with the Jones & Co. assignment.

Mr. Whitmore, the Nephi banker, has been in town several days this week on legal business.

John Moorhouse is awaiting anxiously the termination of the Fish Springs mining suit. He thinks it will be favorable to him.

Judge Smith went to the Junction City this afternoon. He will return on Monday.

The Republican drum corps will give a ball in the opera house on Monday next.

Mr. J. A. Cunningham was down from the capital yesterday on business. The members of the Salt Lake bar who have been with this week returned home this afternoon for Sunday. They will be with us again on Monday.

Between disease and the many cheap preparations which are palmed off under the name of blood purifiers, take your chances with disease unless you can procure Ayer's Sarsaparilla—the only reliable blood purifier. Sold by all druggists and dealers in medicine.

Mr. W. W. Old, general manager of the American Metallic Decorative company, of Denver, Col., is in the city stopping at the Hotel Knutsford. He is on his way to San Francisco, Cal., to make arrangements to place an exhibit of their beautiful work in the Midwinter fair. He will remain with us several days for the purpose of introducing the company's metallic ceilings and establishing an agency. We recommend all who desire to beautify their homes or stores to inspect this new and artistic department in interior decorations. The company manufactures this ceiling, side walls and wainscoting all of steel, and decorate them in perfect representation of marble and wood, also do bronzing, oxidizing, and tinting in colors. Mr. Old invites special architects and builders to examine the work.

"Romany Rye" is a great play. You can get the best seat in the house for 50 cents, Nov. 16, 17, and 18. Buy your seats Tuesday.

For Sale Cheap.

Minion body type in first class condition, any quantity up to 2,000 pounds. Apply at this office.

New Sugar Machinery.

The sugar interest, commercially and industrially considered, has been enhanced in value by the introduction of some highly perfected machinery, the latest example being an evaporating apparatus for insuring complete and rapid circulation of the cane juice, combined with the most effective distribution of the steam for heating the juice. The condensed water outlets from the calandrias are made very large and are connected to special water and vapor receivers; there is also an ingenious arrangement of pipes and cocks connected to the main condenser, and by means of which gases of any density lodging in any part of the calandrias are immediately drawn off, the accumulation of such gases being one of the sources of interruption to the free distribution and circulation of the vapor steam in the calandrias. The usual back pressure or exhaust steam of three to five pounds per square inch is ample to work the apparatus, which is automatic in its action. Both labor and fuel are said to be largely saved by the use of this apparatus.—New York Sun.

How to Throw a Horse and Kill Him.

There is a certain way that experienced stockmen know of throwing a horse down so as to break his neck and kill him at once. An ordinary halter is put on the horse, the lead strap from it passed between the horse's front legs, a turn being taken around the fore one near the fetlock. The executioner then hits the horse a sharp cut with a whip, and when he jumps up, pulls sharply and strongly on the halter strap. The horse strikes head first with the entire weight on his neck. It falls invariably fatal.—St. Louis Globe Democrat.

TOLD ON THE QUIET.

Galigher and His March—Women in Politics—General Glimpses.

(Merely a Matter of Individual Opinion.)

I am sorry for Jo Galigher. He denies that he ever asserted that no matter what might befall, no matter who might desert the Liberal party, he would be found still in the ranks, and when a solitary figure, armed with a torch and a broad smile, was seen marching down Main street all alone, it would be him. The late organ of the late Liberal party says such a statement is a campaign lie. Well, probably it is. Further, I am inclined to believe it is. The mere fact that it first appeared in the Tribune is enough to cast a great big gob of suspicion upon it, and Mr. Galigher's denial is all that is needed to prove that it was a campaign lie of the worst description.

Women can now vote in Colorado. Keep it dark, however, or there may be a big movement on the part of Utah ladies to get across the state line.

Mitchell and Corbett's great big game of bluff will soon be played out. The public is already weary with the battle of the chin.

Human hair, it is said, varies in thickness from the 250th to the 600th part of an inch. I have been vainly trying to see just where Bill Nye and I come in.

To the gentleman who asks for information I would say: There are 4,965 daily newspapers in the world—save a few that have lately been started in Utah which may wink out before the ink is dry on this morning's issue of The Herald. Over a third—or 1,757—are published in the United States.

Young Mr. Wolcott, of Colorado, has just earned, it is said, the reputation of being the most expensive eater in Congress.

George Gould announces that he is in favor of an income tax. "Every rich man," he says, "should be taxed in proportion to his income." All right, George, go ahead; if you can stand it, I can.

Rev. and Mrs. Benjamin Stevens, of Hannibal, Mo., have been married seventy years—both are alive.

A postage stamp lay in her hands, and fastened to the gum a piece of cloth, and cried in glee: "My new ball dress has come."

There is a new fad now in vogue. It is the turning of rings on the fingers of young gentlemen by young ladies. It took me some time before I caught on—as it has in many other instances, ere now, but I have just learned by a better recollection of an eastern friend that the idea is this: When a young lady meets a young man with a ring on his finger she turns the ring two or three times. Then with another man the same thing, and so on until she has turned rings to the extent of about twenty-four times. Then the next thing to do is to look for some married person, male or female, wearing a marriage ring. This she is to turn twice, and the next man she shakes hands with will be her husband.

Crazy idea? Well, I should say so, but the fad is spreading in the east, and I hear it has already obtained a foothold here.

A mathematical genius figures out that the money spent by young men visiting the world's fair will result in postponing 62,307 marriages for periods ranging from three to twelve months. In order to arrive at the net misfortune entailed by these postponed marriages the additional months of courtship bliss must be deducted.

An average waltz takes a dancer over about three-quarters of a mile; a square dance makes her cover half a mile. A girl with a well-filled program travels thus in one evening: Twelve waltzes, nine miles; four other dances at half a mile apiece, which is hardly a fairly big estimate, two miles more, the intermediate stroll and trips to the dressing room to rearrange her gowns and complexion, half a mile; grand total, eleven and one-half miles, and yet the same demure little would suffer a severe attack of nervous prostration if she were asked to bring in the day's washing.

A dispatch in an eastern paper reports a young man being shot while he had his arm around his girl's waist, and this leads a young lady friend of mine to remark: "Well, he at least died happy!"

It is an offense to throw waste-paper in the streets of Spokane, Wash. A similar law in Salt Lake, were it enforced, would put half our inhabitants in jail.

DR. FELL.

Railway Notes.

Henry Libon, union ticket agent at St. Louis, Mo., is in town for a few days, accompanied by his wife and family.

It is reported that Superintendent W. H. Bancroft, of the Union Pacific, is improving rapidly and will be around again in the near future.

Superintendent L. Mulloy, of the Wyoming division of the Union Pacific, came down from Cheyenne yesterday and was seen about the offices during the afternoon.

J. H. Bennett yesterday received a letter from the advertising department of the Midwinter fair, informing him of the shipment of a consignment of matter relative thereto.

Mr. Burley reports that travel is good over the northern route of the Union Pacific to San Francisco, as the ocean is now as smooth as is necessary for comfortable journeys. During the Midwinter fair his road expects to have a good amount of patronage from those who are desirous of seeing the grand scenery of the Columbia and Shasta valleys.

Mr. John Hungerford, proprietor of the fine livery stable at the West End Hotel, Elmina, N. Y., says Hood's Sarsaparilla goes way ahead of anything he ever took for troubles with the

Liver and Kidneys

with which he suffered for a long time, until he took Hood's Sarsaparilla, and was completely cured. Other members of his family also take

Hood's Sarsaparilla

and are highly gratified with the benefit from it.

Hood's Pills are a mild, gentle, painless, safe and efficient cathartic. Always reliable. 20c.

Not a Cent More,

Not a Cent More,

Than \$5.00 Is Accepted for a Month's Treatment and Medicine, for any Disease by Drs. Mansfield and Bissett, offices in the Dooly P. O. Building.

CHILDREN ARE CURED,

As Well as Grown Persons. Parents Should Bring Their Children to Be Treated Now So That They May Be Placed in a Healthful Condition to Withstand the Cold Weather That Is Coming.

"I am fifteen years old and I have suffered from catarrh ever since I can remember," said Mary Miller to the writer.

MARY MILLER, 614 SEVENTH ST.

Continuing, she said: "I suffered with headaches and roaring in the ears at times. My nose stopped up so bad that I had to breathe through my mouth most of the time. My throat was sore and filled with mucus, and I would hawk it up every morning for an hour or so getting my throat cleared out. I coughed all day long a kind of hacking cough, and at night it kept me awake a good deal. I suffered with a pain around the heart. About the pains across the chest that caused me a great deal of annoyance."

Such was my condition, a young life made miserable, and any remedies I tried did not seem to help me, when I read of Drs. Mansfield & Bissett's remarkable cures of cases of the same nature as mine that I applied to them for treatment.

I began their treatment and followed their directions and used their remedies, and today I feel like another person. The headaches have stopped, roaring in the ears gone, throat well and clear from mucus. My cough has left me, the pains around my heart and across my chest

are gone, and I get up in the morning feeling fresh and rested, while before I took treatment I got up every morning feeling tired out. I recommend Drs. Mansfield and Bissett highly and will verify this statement to any one calling on me, or by letter to those out of the city who wish to write.

All diseases only \$5 a month, medicine free. Apply now before the severe cold weather.

TREATMENT BY MAIL.

No Necessity of Coming to the City for Treatment.

Almost every mail brings letters asking Drs. Mansfield and Bissett: Is it necessary to live in Salt Lake in order to take the treatment? Can you treat patients at their homes by mail? and other questions of similar import.

Drs. Mansfield and Bissett desire to state, therefore, for the benefit of those who may be hesitating about writing to them, that by their question blanks and other systematic arrangements, a sufficient knowledge of each case can be obtained to make treatment an easy matter. Thus patients can be treated at their own homes as well as in Salt Lake. Medicines are sent by express, a regular correspondence is required and maintained, and the physical and mental condition of each patient is carefully noted, modifications in treatment prescribed with the proper material and in every detail each case is worked out until a cure is effected. Enclose a stamp in stamps when you write for question circular.

Drs. Mansfield and Bissett are PERMANENTLY located in Salt Lake City. PERMANENT, RESPONSIBILITY and SKILL form the basis of every claim they make.

Zion Medical Institute

Located Permanently at Rooms 302, 303, 304, Dooly (P. O.) Building, Salt Lake City, Utah.

T. B. Mansfield, M. D.
J. A. Bissett, M. D.

Consulting Physicians.

Specialties: All diseases of the Eye, Ear, Nose, Throat, and Lungs. All Chronic Diseases.

Office hours—9 to 11 a.m., 2 to 5 p.m., 7 to 9 p.m. Sundays, 11 a.m. to 1 p.m.

\$5 A MONTH.

All patients under treatment or placing themselves under treatment before January 1st will be treated and cured at the uniform rate of \$5 a month. Medicines furnished free. This includes Consultation, Examination, Treatment and Medicines for all patients and diseases.
